

Welcome to
Our Family

Article 17 - You have a right to information

We would like to share our home with you
and be your foster family

What is a foster family?

The word "foster" means to help someone (or something) grow and develop. It also means to take care of someone's needs. Foster parents, are people – other than a child's parents or family— who give a child a safe place to live and grow. Foster parents take children into their homes and take care of them for as long as children need. Together, they become a foster family.

Article 21 - If you can't live with your
parents, you have the right to live in the
best place for you.
