

**School Council**

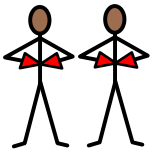

**Project:**

**Findings**

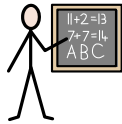

We

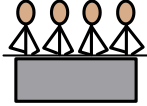

listened to:

- more than **7,500** children and young people

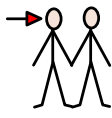

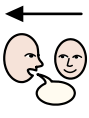

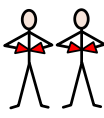

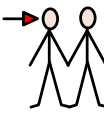

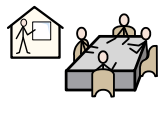

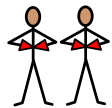

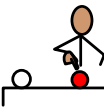

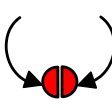

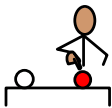

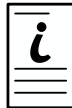

- **360** teachers

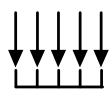

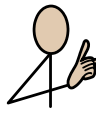

- **135** school governors

 They  told  us  how  they  feel  about  school councils.

 We  used  this  to make  the findings  in  this  report.

 Every  school  must  have  a school council.

## The FINDINGS

1

1. School councils are important.

2

2. Secondary school pupils think school councils are less important.

3

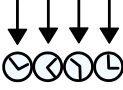

3. Taking part supports young people's well-being.

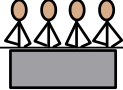

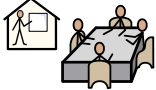

4

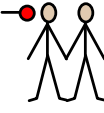

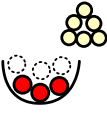

4. Not everybody feels they have equal opportunities to take part.

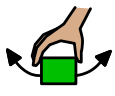

5        
 5. Pupils are not always chosen fairly for the school council.

6         
 6. Some governors do not share their decisions with school councils.

7         
 7. Some pupils don't feel that their school council links to

   
 the rest of the school.
