

Coronavirus

and

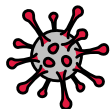

Us

In March

2020

2020,

Coronavirus

meant

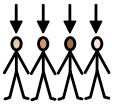

Wales

was put into

a lock-down.

Everyone's

life

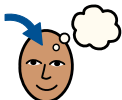

changed

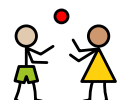

in Wales.

Children's

learning,

play

and

support

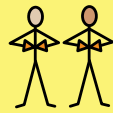

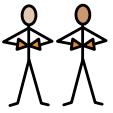

changed

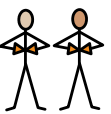

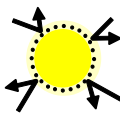

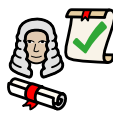

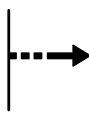

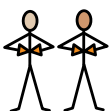

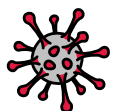

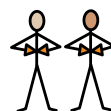

too.

 +  
Coronavirus and Us Report

 2020   
In September 2020 we wrote a report.

      
Its about how we protected children's rights at the start of lock-down.

 ++     + 
We also wrote a report called **Coronavirus and us.**

      2020
Its about support we have given children since September 2020.

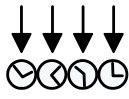

Our Work

We

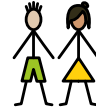

always

support

children,

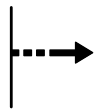

young people

and

their families.

At the start

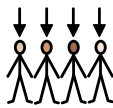

of lock-down

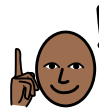

we decided

to make sure:

- Everyone

had clear

information

and advice.

- Children

that needed

more

support

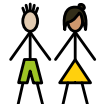

were looked after.

- Children

and

young people

were heard.

- The government

and

other services

listened

and

responded.

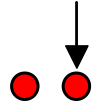

+

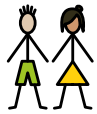

Achievements of Government and other services

+

The First Minister and other Ministers met with young people.

+

Young people were listened to and could ask questions.

The Government gave more money to Local Authorities.

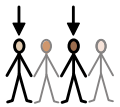

The money paid for summer activities.

This was called Summer of Fun.

Some

children

received

free

school meals

before

lock-down.

These children

received

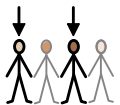

food

during

school closures.

Some

children

could

to go to

school

during

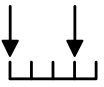

the lock-down.

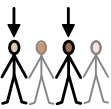

What could have been better?

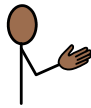

Some parks and leisure centres were closed or difficult to visit.

Some children could not take part in online lessons.

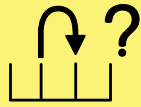

1

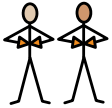

Only one parent / carer was allowed to visit children in hospital.

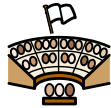

What next for the Welsh Government?

We

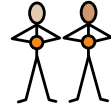

asked

the Government

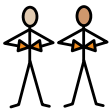

to listen to

our

advice.

We

think

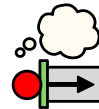

our advice

can

help

prepare for

emergencies.

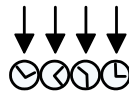

We

asked

them

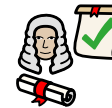

to always

think about

children's

rights.

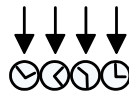

We

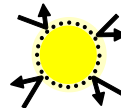

asked

them

to always

protect

children.
