## Community Ambassadors

---

This term's Special Mission is all about your young people's wellbeing following the very unexpected past 18 months. We know lots of you will be beginning to return to a more familiar way of working and meeting the young people face to face. We hope this mission supports you to evaluate their wellbeing and involve them in thinking about continually creating a happy and healthy group and community that's supports every individual's needs.

You know how the mission would work best in your setting, the supportive questions could be completed independently by all members or be held as an open discussion during a meeting. Please feel free to adapt the questions to suit the environment and needs of your group. However we would welcome you arranging a meeting between your ambassadors and yourself and other support workers as part of the mission to discuss the topic. During this meeting you and your Ambassadors could think about how your group and their community support their wellbeing and if there are any changes that could be made to better improve it? You could agree on some priorities moving forward and make a plan on how to make a difference.

You could consider using CCFW's [Make a Difference – A young people's guide to taking action](#) resource to inspire and support the young people to make a change in their community. Don't forget that we also have this mission running in secondary schools if they wanted to encourage their school to complete this mission see [here](#).

## Mission tips

- Ambassadors could do this mission alone or they could work with other group members to do it.

## Extension activities

- Could you involve families and the wider community in your plans?
- Could you find out what events are happening in your community soon that supports CYP well-being that you could help promote?
- Could you contact your local councillor or MP to discuss CYP well-being in the community?
- Is there anything that could be improved in your community?
- In a years' time could you assess whether any change has happened?
- Can you think of ways to make sure conversations about well-being continue?
