

Education in Hospital Settings

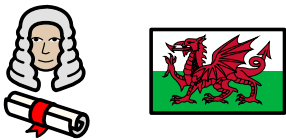

All children have a right to education.

Sometimes children need to stay in hospital or other healthcare.

If this happens children should be supported to learn if they are well enough.

The law in Wales says this.

We are worried some children don't get the chance to learn in hospital.

This project will find out if children are able to get their right to education.

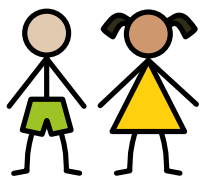

We will ask children and their families about their experiences.

We hope to find good examples of how children are supported.

We will write about anything that is missing or could be better.

Our aim is that all children experience their right to education.
